

BARN BIOSECURITY

CLEAN AND DISINFECT EQUIPMENT

1

- Remove manure and other organic matter
- Wash with soap and water
- Disinfect
- Wait until dry

WASH

- Wash your hands before entering the barn
- Wearing gloves is a good idea for extra protection

3

SICK?

- Watch your animals for signs of illness and isolate them ASAP
- If you feel sick, do not enter the barn

?

2

CLOTHES AND SHOES

- Wear clean designated clothing
- Wash or disinfect the clothes and boots you have on **before** wearing them into the barn

4

STOP THE SPREAD BETWEEN ANIMALS

- Do not share equipment between animals and exhibitors
- Wash your hands, gear up with protective equipment, and keep sick animals away from healthy ones – YOU are the key to preventing disease spread
